WONDER OIL TECK TEAK OIL COLOURLESS

WONDER OIL TECK has been developed to preserve the warm and natural tone of wood.

This oil protects teak and other woods against bleaching and fouling for many months.

WONDER OIL TECLK does not change the original colour of the wood.

WONDER OIL TECK highlights the grain of the wood.

WONDER OIL TECK IS USED AS FOLLOWS :

Apply with a paint brush or a non-fluffy duster. Apply 2 coats at right angles to saturate the surface. Use 1 litre for 8 to 10 m^2 . We advise you to apply oil one day of sun and when the teak is a little hot (for example, in the forenoon).
